Sir:

I, Bradford R. Turner, hereby declare that I am authorized to act on behalf of the assignee of the above-identified U.S. Patent No. 5,393,368 (the '368 patent), Berol Corporation. The title of my position with the assignee is Vice President, General Counsel, Sanford Brands. The entire title of the '368 patent is vested in the assignee, as reflected by the assignment recorded on July 18, 2001, at Reel 11987, Frame 0649.

I believe that Christopher John Stevens is the original and first inventor of the subject matter described and claimed in the above-identified '368 patent, entitled "Correction Tape Dispenser," which issued February 28, 1995, and for which a reissue patent is being sought.

The reissue application was filed September 30, 1997, as application number 08/940,815 ("the '815 application"), and was amended (i) April 7, 2006, (ii) January 10, 2007 (which amendment did not comply with 37 C.F.R. §1.173(b)), and (iii) April 2, 2007 (which amendment was filed to address the deficiencies of the January 10, 2007, amendment).

I hereby state that I have reviewed and understand the contents of the '815 application, including the claims, as amended by the amendments referred to above.

On behalf of Berol Corporation, I acknowledge a duty to disclose information of which Berol Corporation is aware and which is material to the examination of this reissue application in accordance with 37 C.F.R. §1.56(a).

Every error in the '368 patent which was corrected in the present reissue application, and which is not covered by the prior declaration submitted in this application, arose without any deceptive intention on the part of the applicant.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of this reissue application or any reissue patent issued thereon.
